MANAGEMENT DISCUSSION AND ANALYSIS REPORT

ECONOMIC & INDUSTRY OVERVIEW:

The year 2015-2016 witnessed no major surge in economic growth. The global growth declined to 3.1% in the year 2015 from 3.4% in 2014. The unprecedented fall in oil and commodity price, the volatile financial market and low inflationary trends were the main causes for this slowdown. The projected growth in Indian economy is approximately 7.5% for the fiscal year. In the last quarter of 2015-16, the economic activity in India lost the momentum due to declining agricultural and industrial growth. The INR lost its ground and reached 68.5 per USD on 19th February 2016 which lead to all time high during intraday trading on 29th February 2016 and it happened due to the strong demand for USD coupled with the depreciation of INR.

However, after the budget, the government's decision to stick to fiscal deficit target of 3.5 per cent for the year 2017 and also due to sustained foreign capital inflows and sale of dollars by exporters, Rupee closed at 66.26 against dollar as at 31st March 2016. India's financial services industry is expanding at a rapid pace, driven by the government's pro-sector measures, announced in the last fiscal. These initiatives have given significant impetus to the sector that includes, commercial banks, insurance companies, non-banking financial companies, co-operatives, pension funds, mutual funds and other smaller financial entities.

For over a decade, Indian NBFCs have played a pivotal role in meeting the country's diverse financial requirements. They cater to under-penetrated and unbanked customer segments, fulfilling their financial needs. NBFCs are able to reach deeper, offer more specialized services, and are able to lend to sectors and customers who find it difficult to obtain bank lending. NBFCs have performed well in retail asset-backed lending, lending against securities and microfinance. Besides, they have done substantially well in farm equipment financing, loans for purchase of used commercial vehicles & machinery and small ticket personal loans.

NBFCs are expected to play the role of a key financial intermediary, once they are integrated in the financial system with full policy support. Factors like better understanding of customer profile / need, better product lines, wide network; quick turnaround time and robust risk management capabilities will contribute to the growth of NBFCs.

NBFCs and regulatory environment

The RBI conducted a comprehensive review of NBFC regulations in 2014. The revised regulatory framework is designed to focus supervisory attention to those NBFCs which genuinely can pose risks to the financial system and bring operational freedom to smaller NBFCs. Assets classification and Provisioning norms of NBFCs are going to converge with those of banks by the 2018. Government Initiatives NBFCs shall be eligible to claim tax deduction to the extent of 5% of total income on account of provision for bad and doubtful debts (NPAs). It has been a long awaited demand to treat the provision of bad debts of NBFCs at par with that of Indian banks in terms of tax deduction. This has only been moderately met as the prescribed percentage is less than that allowed for banks. However, this is a positive development for NBFCs reducing the tax outgo for them. It has provided them a much sought after relief, especially in these rising NPAs scenario. Reversal of input tax is proposed to provide additional options to banking companies, financial institutions and non-banking financial companies, with respect to nontaxable services provided by them by way of extending deposits, loans and advances.

FDI will be allowed beyond the 18 specified NBFC activities under the automatic route. This move will help in promoting ease of doing business and attracting overseas investments by doing away with the need of seeking government approvals. In 2015 Union Budget, the finance minister announced that NBFCs would be considered as an eligible financial institution for SARFAESI benefits. However, the corresponding amendment in the SARFAESI Act is yet to be introduced. This move would facilitate faster liquidation of immovable assets for recovery of bad loans.

SECTOR OVERVIEW -NBFCs – PERFORMANCE AND REGULATORY ENVIRONMENT

Over the past few years, the significance of NBFCs has been growing, both in terms of funding as well as reach. From 10.7% of banking assets in FY09, this category of lenders increased its presence to 14.3% in FY14 on the strength of its competitive advantages, including focus on niche segments, expertise in specific asset classes and growing penetration into unbanked and rural markets. On the other hand, the growth in non-food credit and bank credit to commercial sector from scheduled commercial banks has been displaying a definite downward trend since the second half of FY14. Based on the segments they cater to, NBFCs can be classified into eight broad categories. While Housing Finance Companies (HFCs) are regulated by the National Housing Bank (NHB), all institutions falling into the other seven categories come under the purview of the Reserve Bank of India (RBI).

OPPORTUNITIES

The sentiment in the Indian financial market has changed considerably over the past few years; the economic growth, though subdued for last couple of years, is likely to show positive momentum over the coming years. This has presented ongoing opportunities for financial intermediaries to spread and benefit from the investment culture across the country.

Following factors present specific opportunities across our businesses:

- Growing Corporate activities and related need for fund raising, re-organization and acquisitions;
- Low penetration of financial services and products in India;
- Globalization - corporate are looking at expanding in domestic/overseas markets through merger & acquisitions;
- Growing midsize segment of corporate activity where the need for customized solution is particularly high;
- Regulatory reforms including policy framework aiding greater participation by all class of investors;
- Growing Financial Services industry's share of wallet for disposable income;
- Regulatory reforms would aid greater participation by all class of investors;
- Emerging technology to enable best practices and processes;
- Size of the Indian capital market and favorable demographics like huge middle class, relatively large younger population with disposable income and investible surplus and risk taking abilities of the youth.
- In this backdrop, Sungold Capita Limited has evolved into a strong and focused financial services organization over the years and is set to further accentuate its business growth.

THREATS

Despite great opportunities, there are significant factors presenting threats to our businesses viz.

- Bad monsoon leading to higher food prices, thus inflation may continue to remain out of control which may lead RBI to continue with monetary tightening policy measures;
- Impact on economic growth of the rising prices of oil and industrial raw materials, decelerating investment demand and high inflation;
- Volatility in the Rupee-US Dollar movement due to various factors including current account deficit;
- Reducing capital expenditure by Industries;
- Regulatory changes impacting the landscape of business;
- Increased competition from local and global players operating in India;
- Continuous downward pressure on the fees, commissions and brokerages caused by an overbanked market and willingness of most players to deliver services at very low fees.
- Interest Rate Risk, Eco-political Risk and Competition Risk
- However, your Company is well aware of the above threats and has worked steadily to strengthen its business operations by putting appropriate policies and measures in place and well positioned to counter any adverse threat successfully.

RISKS AND CONCERNS

In the financial services sector, it becomes imperative to ensure that profitability does not come at the cost of asset quality. The Company has put in place adequate risk identification, risk management and mitigation processes to keep any such trade-off at bay. The Company has built robust systems and processes for both its verticals i.e. MSME and Wholesale Lending, to take care of the respective risks associated with them. It is also constantly gauging the external macroeconomic environment, market conditions, and government policies to ensure that the business is one step ahead of the industry and monetary cycles, thereby insulating the Company from downtrends and enabling it to ride uptrend. However, in any business, risks and prospects are inseparable. As a responsible management, the Company's principal Endeavour is to maximize returns.

The Company continues to take all steps necessary to minimize its expenses through detailed studies and interaction with experts. Timely and effective risk management is of prime importance to our continued success. The risk for the Company arises mainly out of the risks associated with the operations we carry. Experienced professionals review and monitor risks in our Company. We have comprehensive risk management policies and processes to mitigate the risks that are encountered in conducting business activities. The management also periodically reviews the policies and procedures and formulates plans for control of identified risks and improvements in the systems. A risk/compliance update report are regularly placed before the Audit Committee/Board of Directors of the Company. The Directors/Audit Committee review the risk/ compliance update reports and the course of action taken or to be taken, to mitigate and manage the risks is taken.

Annexure- B referred to in paragraph titled as “Report on the Internal Financial Controls under clause (i) of Sub- section 3 of Section 143 of the Companies Act, 2013” (“the Act”)

We have audited the internal financial controls over financial reporting of M/S. SUNGOLD CAPITAL LIMITED (“the Company”) as of 31st March 2016 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The Company’s management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India (‘ICAI’). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors’ Responsibility

Our responsibility is to express an opinion on the Company’s internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the “Guidance Note”) and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company’s internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company’s assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March 2016, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.
