Remuneration of KMPs and other employees

Policy on the remuneration of KMPs and other employees:

1. Fixed pay

The remuneration and reward structure for employees comprises two broad components — annual remuneration and long-term rewards. The committee would determine the remuneration of the directors and formulate guidelines for the remuneration payable to the employees.

These guidelines are as under:

- **Annual remuneration**

Annual remuneration refers to the annual compensation payable to the employees of the Company. This comprises two parts – a fixed component and a performance-linked variable component based on the extent of achievement of the individual's objectives and performance of the business unit. Every employee is required to sign a performance contract which clearly articulates the key performance measures for that particular defined role. The performance-linked variable pay will be directly linked to the performance on individual components of the performance contract and the overall performance of the business. An employee's variable pay would, therefore, be directly dependent on key performance measures that represent the best interests of shareholders.

The objective is to set the total remuneration at levels that would attract, motivate and retain high-caliber, high potential personnel in a competitive global market. The total remuneration level is to be reset annually based on a comparison with the relevant peer group globally, established through independent compensation surveys, from time to time.

- **Long-term rewards**

Long-term rewards may include Long-Term Incentive Plans (LTIP), under which incentives would be granted to eligible key employees based on their contribution to the performance of the Company, relative position in the organization, and length of service under the supervision and approval of the committee. The Company could implement various long-term awards schemes that could include LTIP spread over several years with payouts in multiple tranches linked to Company's performance. Another form of long-term awards could be in the nature of stock options of the Company. Stock options may be granted to key employees and high performers in the organization who would be selected by the committee based on their criticality, past performance and potential. The grant, vesting and other scheme details would be formulated from time to time.

These long-term reward schemes are implemented to attract and retain key talent in the industry.

2. Minimum remuneration to Managing Director

If, in any financial year, the Company has no profits or its profits are inadequate, the Company shall pay remuneration to its Managing Director in accordance with the provisions of Schedule V of the Companies Act, 2013 or, if it is not able to comply with such provisions, with the prior approval of the Central Government.

3. Remuneration to Non-Executive / Independent Directors

The key elements of remuneration of Non-executive/ Independent Directors are commission and sitting fees, subject to overall limit as prescribed in the Companies Act, 2013 and Rules made there under and the approval of the shareholders, as applicable.

The remuneration payable to each non-executive director is based on the remuneration structure as determined by the Board, and is revised from time to time, depending on individual contribution, the Company's performance, and the provisions of the Companies Act, 2013 and the rules made there under.

Presently sitting fees is payable to non- executive/Independent Directors.

4. Stock options

Independent directors shall not be entitled to any stock option of the Company.

Policy review

This policy is framed based on the provisions of the Companies Act, 2013 and rules there under and requirements of Clause 49 of the Listing Agreement with the stock exchanges.

In case of any subsequent changes in the provisions of the Companies Act, 2013 or any other regulation which makes any of the provisions in the policy inconsistent with the Act or regulations, the provisions of the Act or regulations would prevail over the policy, and the provisions in the policy would be modified in due course to make it consistent with the law.

This policy shall be reviewed by the nomination and remuneration committee as and when changes need to be incorporated in the policy due to changes in regulations or as may be felt appropriate by the committee. Any change or modification in the policy as recommended by the committee would be given for approval to the Board.

MANAGEMENT DISCUSSION AND ANALYSIS REPORT

❖ ECONOMIC & INDUSTRY OVERVIEW:

India's real GDP growth marginally improved to 7.4% in the FY 2014-15 as compared to 6.9% in FY 2013-14. The Central Statistics Office has recently revised the national accounts aggregates by shifting to new base year of 2011-12 from earlier base of 2004-05. The GDP figures are hence in terms of the revised series. The overall investment climate still remains cautious. While slower growth is a major worry, inflation concerns have subsided with WPI inflation ranging at around 3-4% for the FY 2014-15, falling from around 7.4% for the FY 2013-14. While the CPI inflation which was running close to double-digits at 10.4% for the FY 2013-14 has declined to an average range of 4-5% for FY 2014-15. The Current Account Deficit (CAD) declined sharply from a record high of 4.7% of GDP to 1.9% of GDP in FY 2014-15. The primary reasons for such an achievement were the continued steps taken by the Government and RBI in curtailing CAD. The forex reserve position of the country also improved to USD 330 bn at the end of FY 2014-15 from USD 300 bn at the end of FY 2013-14.

The new government under the leadership of Mr. Narendra Modi has been putting in efforts to improve the overall investment climate and there is lot of hope that the new policy framework would support the growth engine. Though there remains some major concerns and industry growth still being subdued. The Food prices would need to be consistently watched, to not let the inflation element go out of control. The current situation indicates that there is likely to be a pick-up in consumption and investment, especially with a heavy thrust on infrastructure development and building capacities.

❖ SECTOR OVERVIEW -NBFCs – PERFORMANCE AND REGULATORY ENVIRONMENT

Over the past few years, the significance of NBFCs has been growing, both in terms of funding as well as reach. From 10.7% of banking assets in FY09, this category of lenders increased its presence to 14.3% in FY14 on the strength of its competitive advantages, including focus on niche segments, expertise in specific asset classes and growing penetration into unbanked and rural markets. On the other hand, the growth in non-food credit and bank credit to commercial sector from scheduled commercial banks has been displaying a definite downward trend since the second half of FY14. Based on the segments they cater to, NBFCs can be classified into eight broad categories. While Housing Finance Companies (HFCs) are regulated by the National Housing Bank (NHB), all institutions falling into the other seven categories come under the purview of the Reserve Bank of India (RBI).

Real Estate Sector and NBFCs

Despite its significance and growth, this sector has not yet been awarded industry status and, as a result, often suffers from inadequate funding. Bank funding, at 12-14%, is the cheapest source of funds for the real estate sector. However, due to end-use restrictions and close scrutiny of the use of these funds in construction, the real estate sector has not been able to extensively use these funds for growth capital, such as land acquisition. According to data from the Reserve Bank of India (Deployment of Gross Bank Credit by Major Sector), bank credit exposure to the real estate and housing sector as a percentage of Gross Bank Credit declined from 10% in FY10 to 8.1% in FY14. This has resulted in significant opportunities for NBFCs to tap this sector. NBFCs have been actively pursuing last mile funding opportunities, especially in projects with substantial investments but inadequate 'last mile funding'. While NBFCs typically charge around 18-19% for early stage financing and 15-16% for inventory financing, Private Equity firms charge much more at 25-30%. It is this combination of willingness to fund, coupled with mid-range interest rates that make NBFCs a popular funding option for real estate projects.

❖ OPPORTUNITIES

The sentiment in the Indian financial market has changed considerably over the past few years; the economic growth, though subdued for last couple of years, is likely to show positive momentum over the coming years. This has presented ongoing opportunities for financial intermediaries to spread and benefit from the investment culture across the country.

Following factors present specific opportunities across our businesses:

- Growing Corporate activities and related need for fund raising, re-organization and acquisitions;
- Low penetration of financial services and products in India;
- Globalization - corporate are looking at expanding in domestic/overseas markets through merger & acquisitions;
- Growing midsize segment of corporate activity where the need for customized solution is particularly high;
- Regulatory reforms including policy framework aiding greater participation by all class of investors;
- Growing Financial Services industry's share of wallet for disposable income;
- Regulatory reforms would aid greater participation by all class of investors;
- Emerging technology to enable best practices and processes;
- Size of the Indian capital market and favorable demographics like huge middle class, relatively large younger population with disposable income and investible surplus and risk taking abilities of the youth.

In this backdrop, Sungold Capita Limited has evolved into a strong and focused financial services organization over the years and is set to further accentuate its business growth.

❖ THREATS

Despite great opportunities, there are significant factors presenting threats to our businesses viz.

- Bad monsoon leading to higher food prices, thus inflation may continue to remain out of control which may lead RBI to continue with monetary tightening policy measures;
- Impact on economic growth of the rising prices of oil and industrial raw materials, decelerating investment demand and high inflation;
- Volatility in the Rupee-US Dollar movement due to various factors including current account deficit;
- Reducing capital expenditure by Industries;
- Regulatory changes impacting the landscape of business;
- Increased competition from local and global players operating in India;
- Continuous downward pressure on the fees, commissions and brokerages caused by an overbanked market and willingness of most players to deliver services at very low fees.
- Interest Rate Risk, Eco-political Risk and Competition Risk

However, your Company is well aware of the above threats and has worked steadily to strengthen its business operations by putting appropriate policies and measures in place and well positioned to counter any adverse threat successfully.

❖ RISKS AND CONCERNS

In the financial services sector, it becomes imperative to ensure that profitability does not come at the cost of asset quality. The Company has put in place adequate risk identification, risk management and mitigation processes to keep any such trade-off at bay. The Company has built robust systems and processes for both its verticals i.e. MSME and Wholesale Lending, to take care of the respective risks associated with them. It is also constantly gauging the external macroeconomic environment, market conditions, and government policies to ensure that the business is one step ahead of the industry and monetary cycles, thereby insulating the Company from downtrends and enabling it to ride uptrends.

Experienced professionals review and monitor risks in our Company. We have comprehensive risk management policies and processes to mitigate the risks that are encountered in conducting business activities. The management also periodically reviews the policies and procedures and formulates plans for control of identified risks and improvements in the systems.
